

## 12 Days Trekking to Surma

### Tour Summary

Scenic landscape, temperate climate and the tradition of generous hospitality make Ethiopian highlands to offer superb trekking opportunities .Trekking can be done in different ways which usually includes walking, riding horse or mule or a combination of the two .Trekking in Ethiopia doesn't necessary involve unique skill, although it is obviously best if you are physically fit .The terrain is usually steep for only short periods, when walking rather than riding may be necessary.

The following well blend trekking tour programs will take you to scenic Semien and Bale mountain national parks and to Surma area (western Ethiopia), which gives you an extraordinary opportunity to climb the 1<sup>st</sup> and 2<sup>nd</sup> highest mountains in the country, help you discover the 4<sup>th</sup> largest biodiversity zone in the world hosting diverse endemic fauna, flora and bird species . The journey will also give you real experience on people's way of living in the high land and the least visited remote western tribal areas.

Join WUB ETHIOPIA TOURS to the least discovered travel adventure routes and get seamless experience
